

WELCOME!

I'm so glad you're here!

Hi there! My name is Aly, but my favorite people call me Mrs. Franklin! I am a middle school resource room teacher in Michigan. I spend my time teaching special education math intervention classes, cotaught math intervention classes, and coteaching 6th, 7th, and 8th grade math classes!

My goal with creating Middle School in the Mitten was to share engaging and time saving resources and ideas with busy, world changing teachers like you! All of the activities that are found in my Teachers Pay Teachers store were created for and used with my own students. In fact, I began my TPT journey in 2017, when I shared my first few sets of digital task cards that I was creating for my caseload students!

Thank you for your purchase and support! I created these posters to help my students remember or reference the prime numbers from 1 – 100 independently – so they can stop asking me! 😊

If you have any questions, please feel free to send me an email at middleschoolinthemitten@gmail.com, and I will try my best to help!

- Aly

PRIME NUMBER CLASSROOM POSTERS

what's included

Thanks so much for your download! I'm confident that you'll use these posters year after year! These posters spell the word "Prime" and list the prime numbers from 1-100! Simply print them on colored cardstock, laminate if desired, and put anywhere in your classroom to help your students reference and recall prime numbers! The posters themselves are black and white so they are easy to print, and I've included directions for how to print pages of the PDF at a poster size! I love to print the posters on colored cardstock to really make them pop!

Included in this resource:

- How to Print PDFs as Posters
- PRIME Poster PDFs that list the prime numbers from 1-100!
- Suggestions for other resources you'll love!
- Terms of Use for Middle School in the Mitten Resources

Suggestions for Use:

- Hang the posters in your classroom for a year-round visual!
- Use to create a useful bulletin board that you don't have to change!
- Print student reference pages for interactive notebooks or notes.

LOVE THIS FREEBIE?

I'm so glad!

Leave a Review! – I love hearing about how my products have helped you or your students. Please take a moment to leave a review under the [‘My Purchases’ tab on TPT!](#)

Follow Me! – If this freebie was your jam, [click here to follow my TPT store!](#) I have hundreds of products that will be useful and engaging in your classroom! My goal with creating Middle School in the Mitten was to share engaging and time saving resources and ideas with busy, world changing teachers like you!

Tag me on Instagram! – I love seeing my products in classrooms around the world! After using these posters in your classroom set up, snap a photo and tag @middleschoolinthemitten! I can't wait to see!

Lastly, [check out my website](#) for more teacher time savers, tips, and resources!

a quick how to:

PRINTING PAGES AS POSTER SIZE

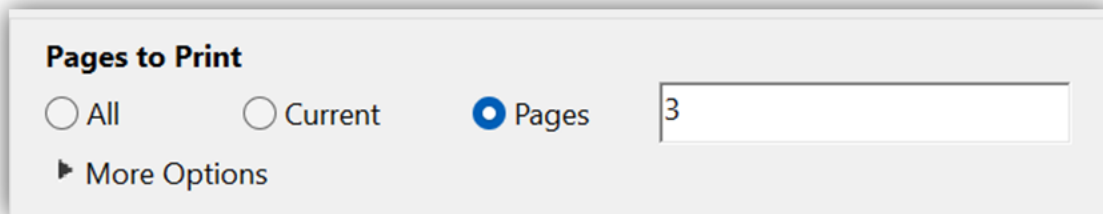

I'm a sucker for a large poster or anchor chart, but I don't often have the time, money, or desire to send a document to my local copy center to make it as large and in charge as I'm picturing in my head! Here's how I print regular pages as poster sized beauties!

Step 0: Download and install the free version of Adobe Acrobat Reader on your computer.

Step 1: Open the PDF file in the free version of Adobe Acrobat Reader.

Step 2: Choose File, then print.

Step 3: Type the page number you'd like to print as a poster. I recommend doing one page at a time, but you can select ranges of pages using a dash (ex. 2-4) or select specific pages using commas (ex. 3, 5 will print pages 3 and 5, but not 4!)

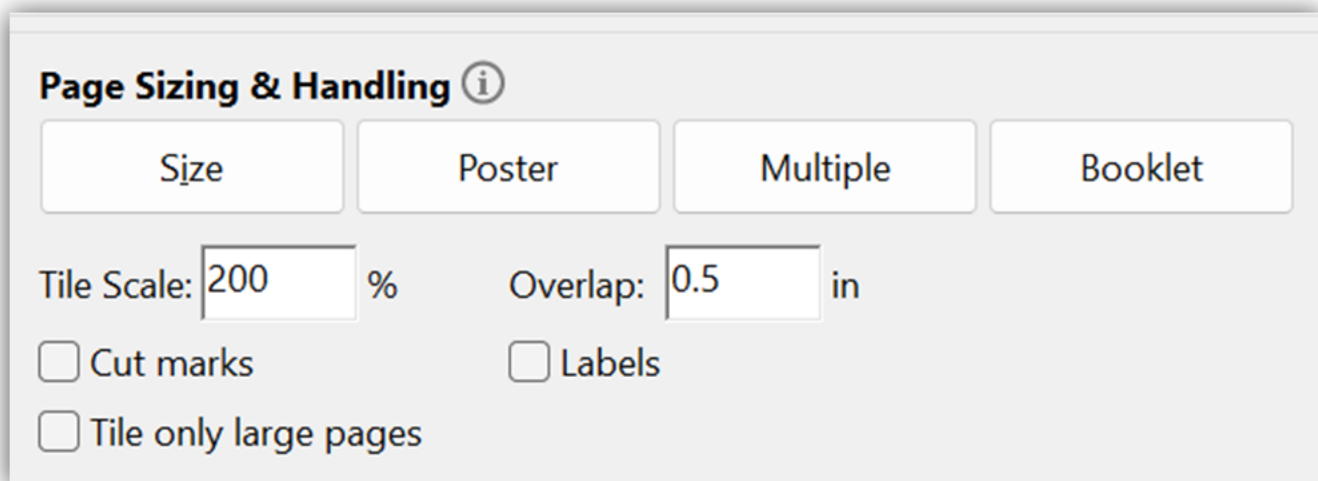

Pages to Print

All Current Pages

▶ More Options

Step 4: Under Page Sizing & Handling, select "Poster", then change the Tile Scale to a percentage that you want to use for your poster (more details on this on the next page). Also, select a small number for the overlap, which is where the edges of the pages will overlap. This is helpful for gluing. If your overlap is larger, your poster will take more pages for printing!

Page Sizing & Handling ⓘ

Tile only large pages

a quick how to: **PRINTING PAGES AS POSTER SIZE**

Step 4, Continued:

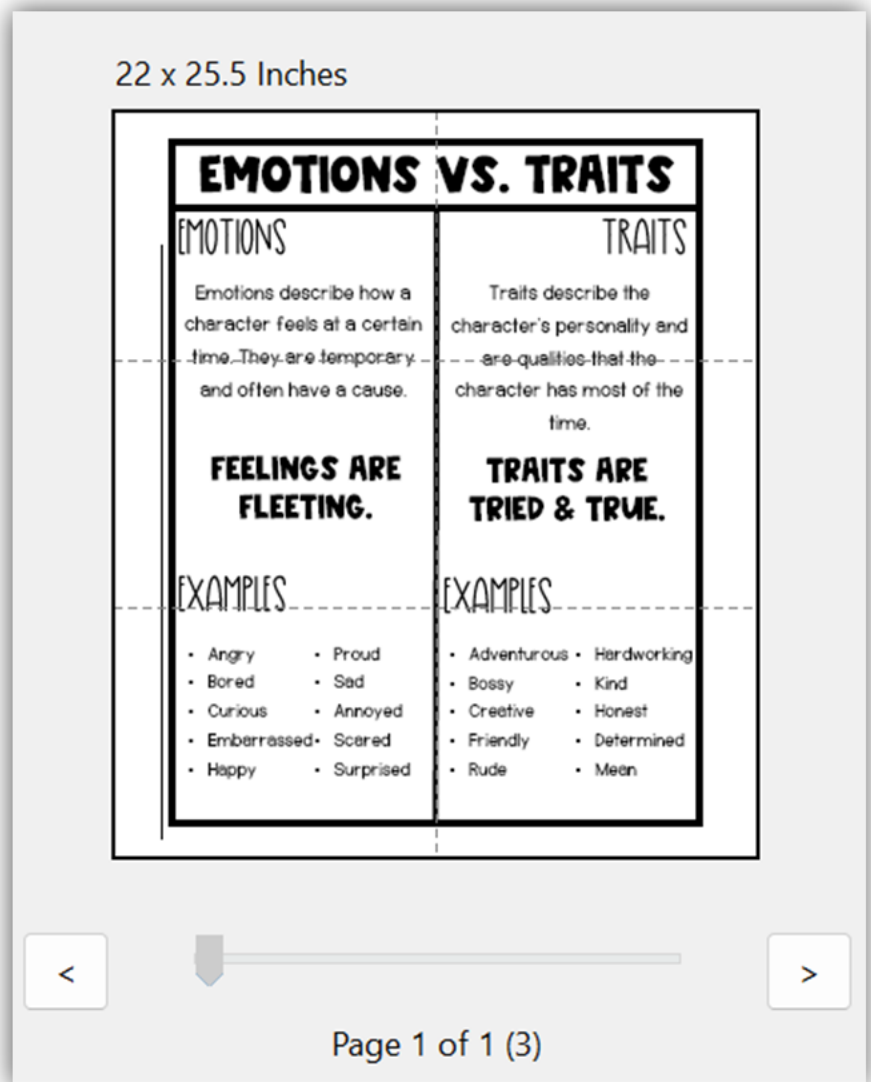

This will take some playing around. Be sure to use the arrows under the preview image to see how many pages the poster will be **INSTEAD** of just pressing enter, as that can sometimes send your job to the printer before you're done playing around with the size! Using 0.5 inch overlap, here's what I've found works for me:

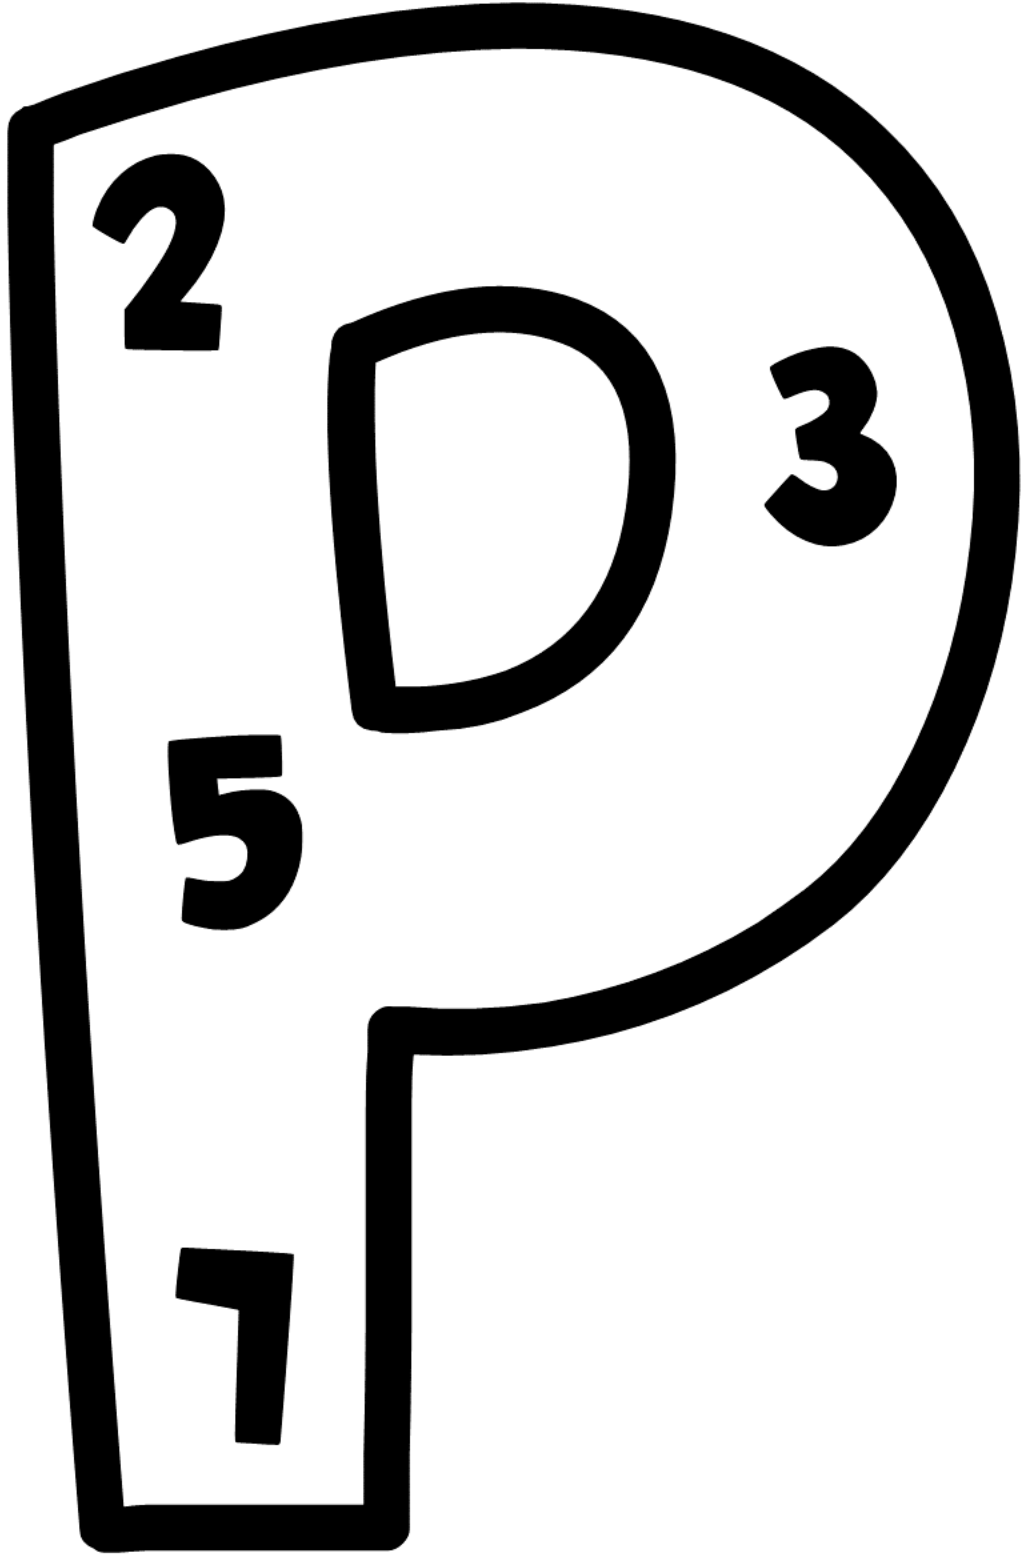

- 126% uses about 2 full pages.
- 188% uses about 4 full pages.
- 216% uses about 6 full pages.

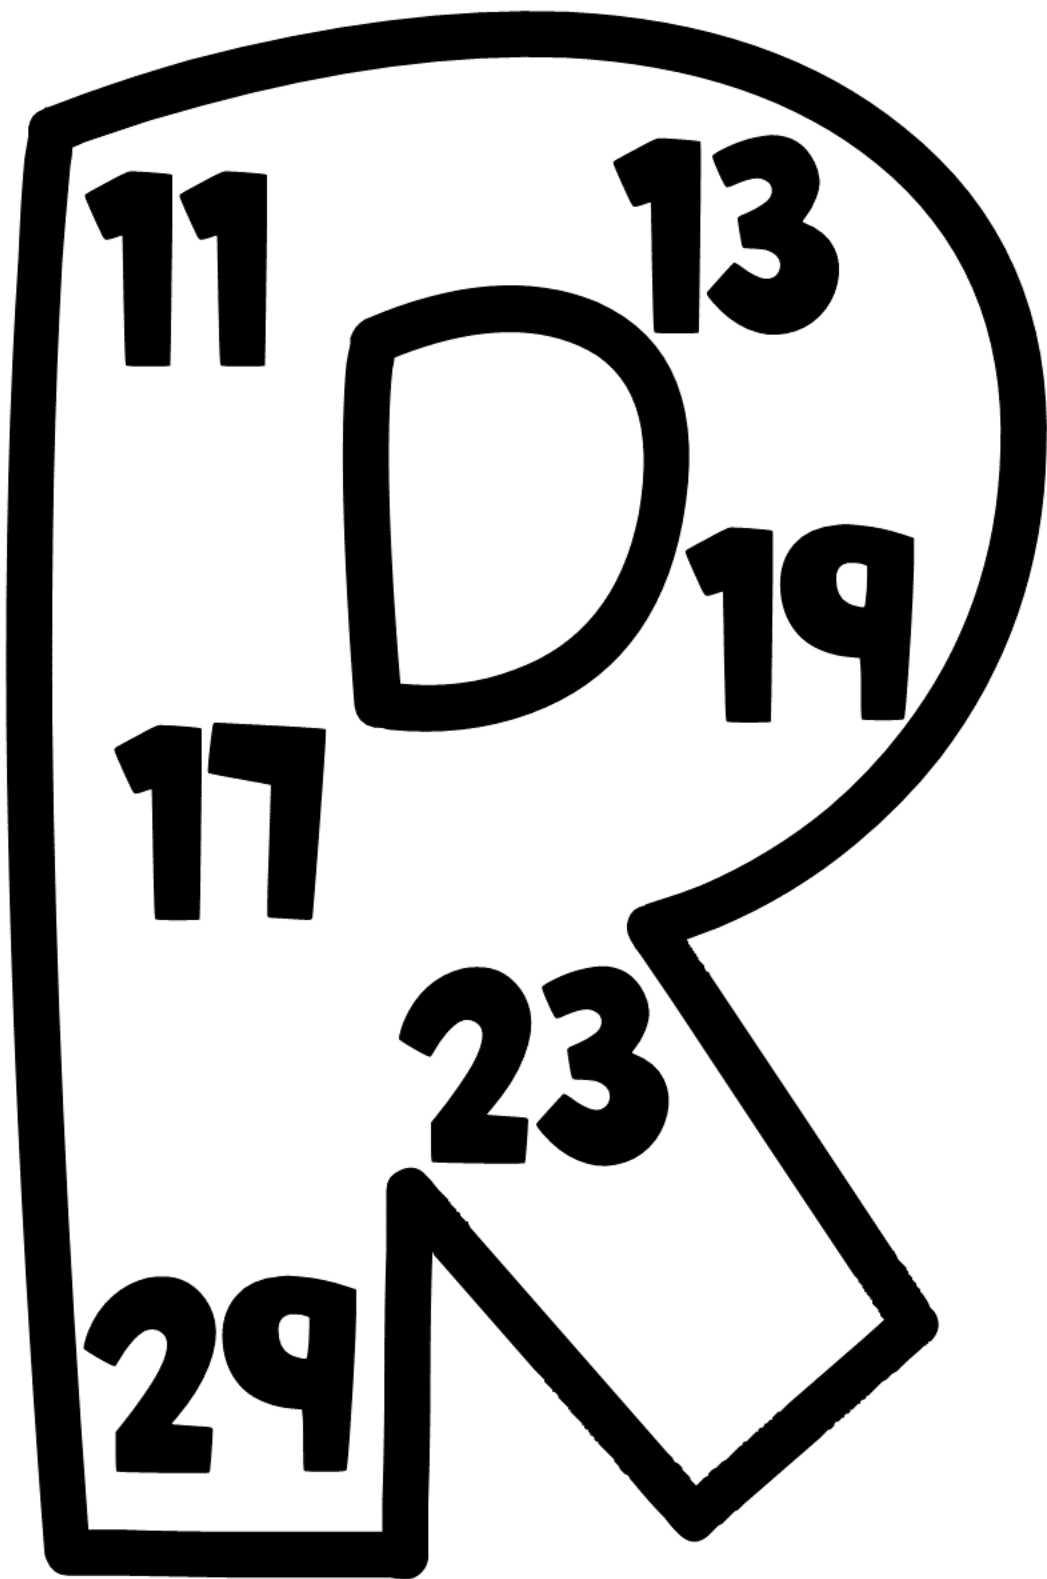

Step 5:

Print the poster and place the pages together like a puzzle. If you used overlap, trim off one of the overlapping pieces, so the remaining overlap will lay underneath the trimmed page. Use glue or tape to secure the poster together.

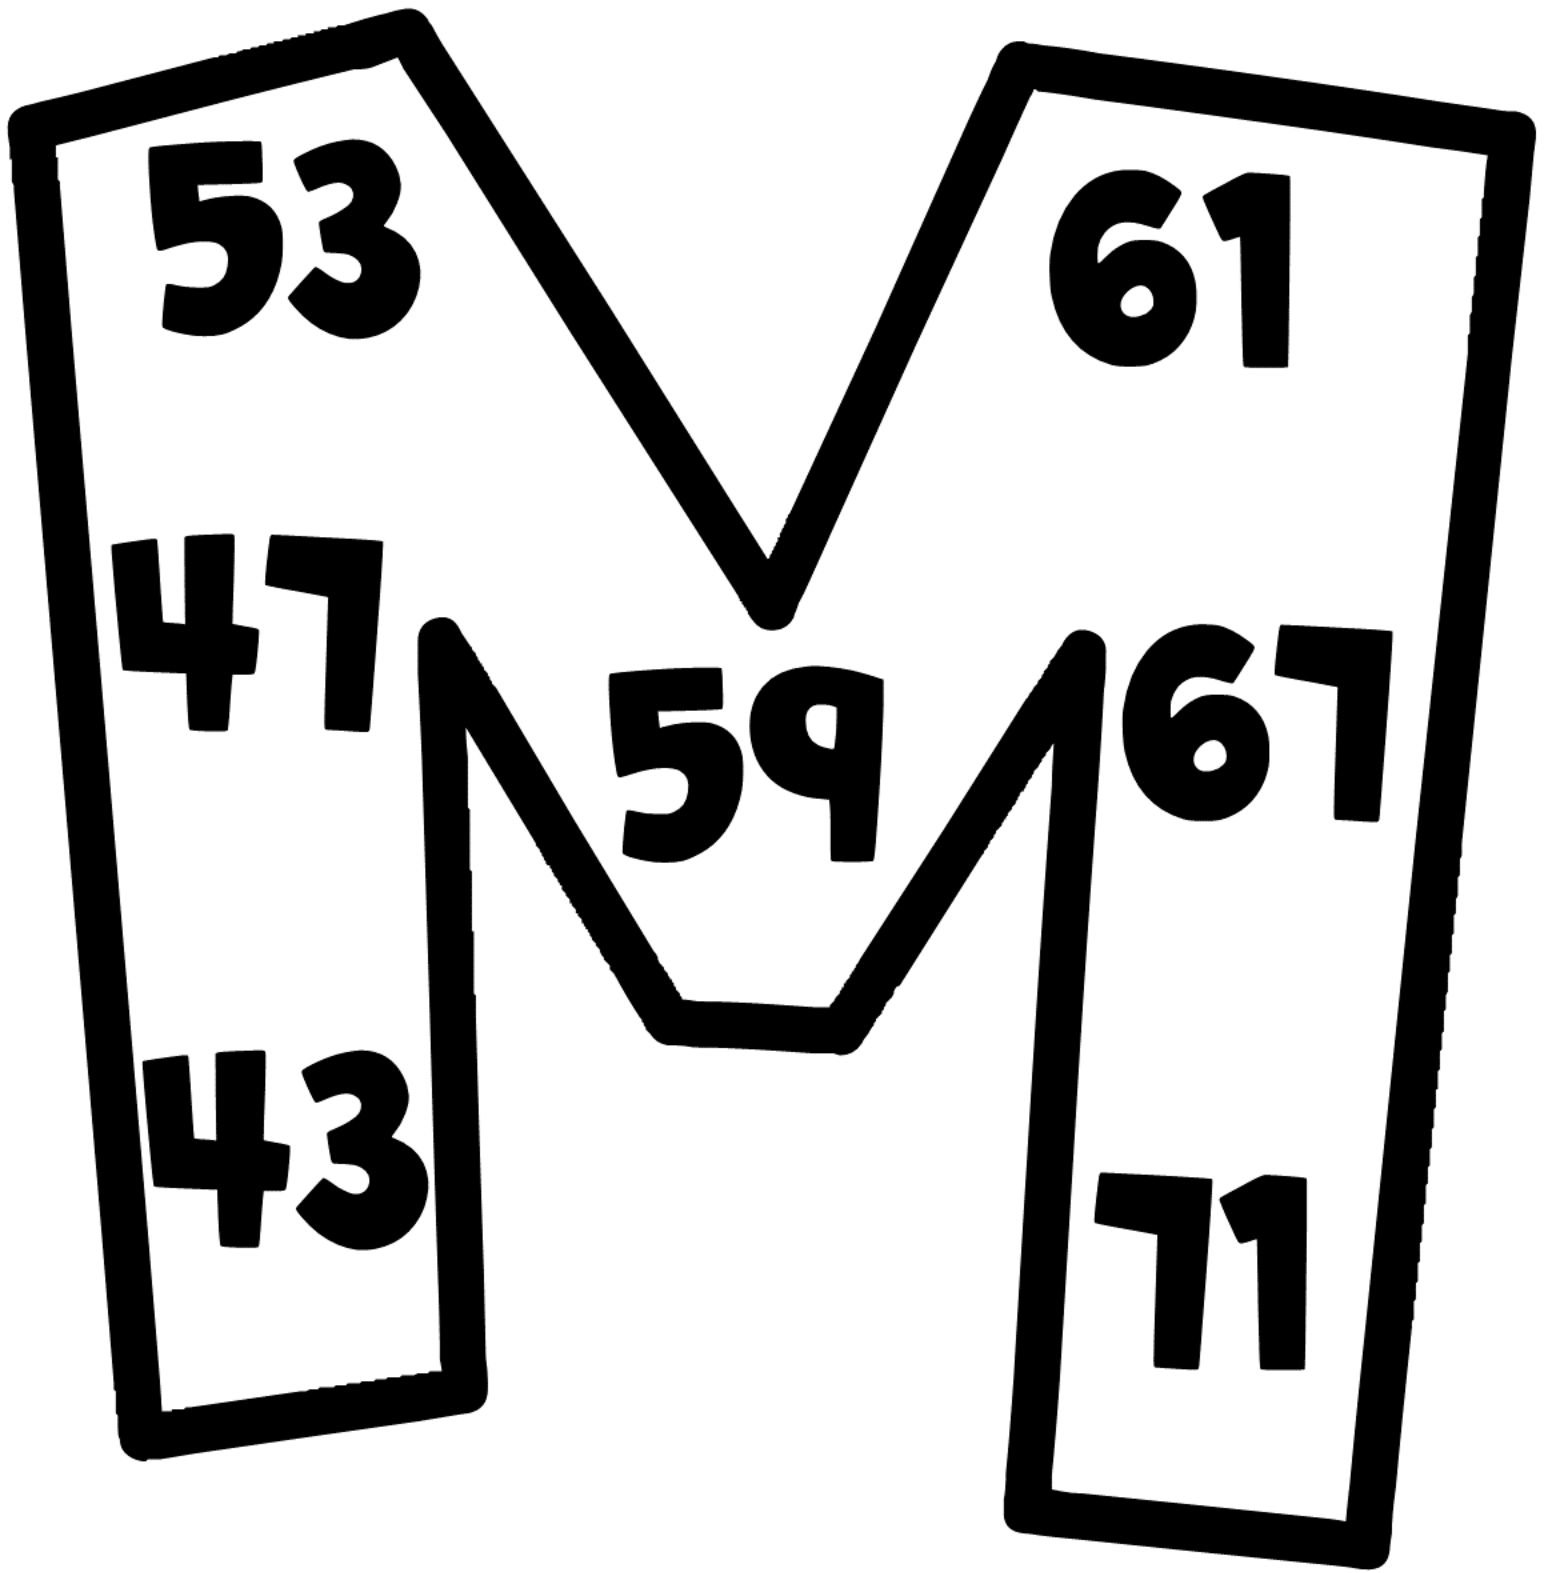

Step 6 (Optional):
Laminate for use year after year!

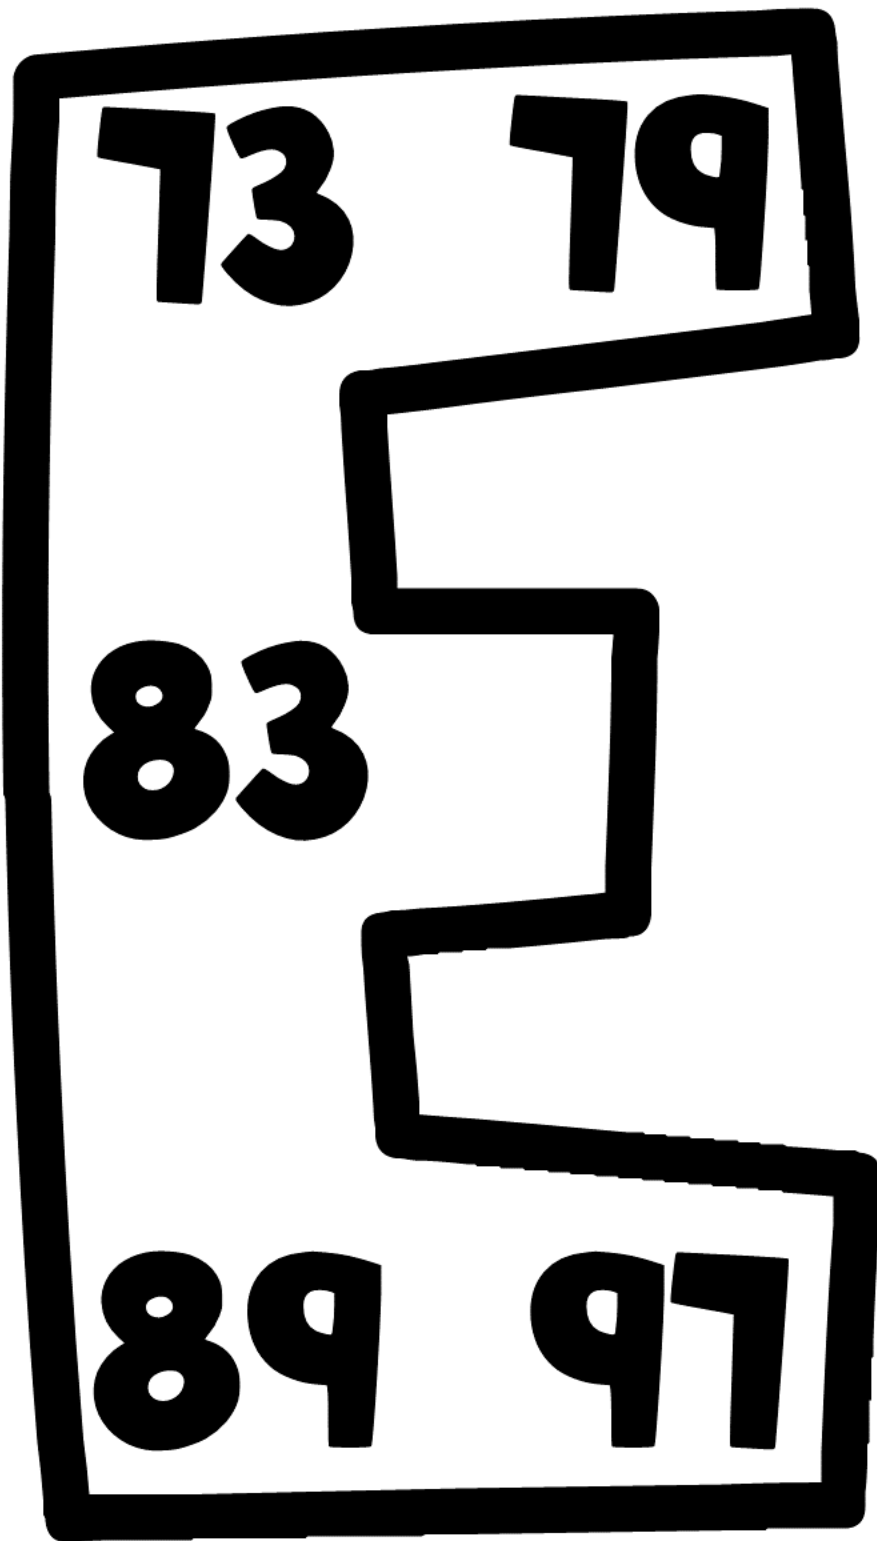

THANK YOU!

Thank you so much for your support! I hope you find this resource useful in your classroom! Please remember to leave feedback to earn TpT credits which can be used towards future purchases. Follow me on TpT to be notified when new resources are added! If you have questions or concerns, please email me at MiddleSchoolintheMitten@gmail.com.
